National Seminar on 'Sanskriti Ka Badlta
Swaroop Aur AI Ki Bhumi'

Impact of Artificial Intelligence on Human Ethical values.

Dr. Mukesh Kumar., Assistant Professor, Suratgarh PG. College, Suratgarh

Abstract

The impact of artificial intelligence (AI) on human ethics is a complex and multifaceted topic that raises numerous questions and considerations. The impact of AI on human ethics is a rapidly evolving field that requires ongoing dialogue, collaboration, and proactive measures to ensure that AI technologies are developed and deployed in a manner that promotes ethical principles, human rights, and the common good.
